SUCCESSES

During my time at college, I took on a challenging experience at The Outward Bound Trust, an educational charity designed to push students' physical limits in the outdoors. I participated in physically demanding activities such as gorge walking, tunneling, orienteering, and a demanding mountain expedition. These experiences placed both myself and my team under significant pressure and stress, requiring us to rely heavily on teamwork, effective communication, and unwavering resilience. Confronting and overcoming these challenges not only expanded my comfort zone but also instilled in me a profound sense of self-reliance and determination.
